

Hello fellow GMO Free Activists,

Here in Edmonton, Alberta, Canada we found a fun way of spreading information about Genetic Modification. In Sept 2006, we put on a musical called A Splice of Life: A GMO Musical.

Join Flora - an undercover activist - as she journeys through the labs of the biotech giant, Monsanto, and makes some startling discoveries about genetic modification.

Good luck with your conference,  
In solidarity, Biofreedom.ca, Canada.
