

Invitation to Movie & Test sessions

GMO-Free O`ahu proudly presents the O`ahu premiere of **ISLANDS AT RISK**, a groundbreaking film about the genetic engineering of crops and patenting of life forms in Hawai`i Nei.

ISLANDS AT RISK, produced by Earthjustice & Na Maka O Ka `Aina, will be shown two nights:

- on Friday, March 30 at 6:30 PM
at ***Bliss A Happy Place For Diabetics***,
87-132 Farrington Hwy, Waianae, (696-7700)

- on Saturday, March 31
at ***Patagonia***, North Shore Marketplace, Haleiwa (637-1245).

Special guests from the film, joining us to answer your questions, include Moloka`I activist Walter Ritte, Kona coffee farmer Nancy Redfeather and Hawai`i Island taro farmer Jerry Konanui.

Don't miss this opportunity for education, vision and action! Bring the newest leaf from your papaya tree to test for GMO contamination while you wait!
