To whom it may concern

**GMO : Monsanto increases repression,
« Les Amis de la Confédération Paysanne »^{*}
call for an increased resistance**

On the 26th of November, the Monsanto Corporation (Round-Up, Agent Orange, Terminator) seized the bank accounts of a trade union, la Confédération Paysanne.

This seizure follows upon a judgment for neutralization, in 1998, of open-air cultivation of GM corn and Soya.

The Confederation Paysanne is being attacked for trying to prevent genetic pollution and the appropriation of the living by the multinationals.

« The Friends of the Peasant Confederation » denounce this repression.

They invite support in the form of initiatives of resistance, as well as financial solidarity.
