\* N.B. : an alternative would be for the participant teams to « share the chair » (under study)

- The numbers are the local hours (ex : '11' means: '11 am' ; '23' means: '11 pm').
- The full duration of the conference (5 hours<sup>1/4</sup>) is divided into quarters of an hour (shown at the top of the columns)
- Each of the yellow/orange stripes correspond to a « dialog window », a time slot inside which a given city (team) may talk to 3 other teams. Ex: Istanbul's time-slot would be from 5 pm until 5.45 pm; Chicago's one would start 11:45 am and would end at 0:45 pm; Berkeley's time-slot starts here at 10:15 am and ends at 11:15 am
- Every quarter or so, one group of speakers leaves the « dialog window » (yellow/orange in the figure), which allows a new team to get in.
